Gettysburg Address.

November 19: Special Design President Harry S. Truman, shortly before ten o'clock this morning, signed the Senate Joint Resolution authorizing the issuance by the U.S. Post Office department of a special series of stamps to commemorate the 85th anniversary of Lincoln's

The new stamps will go on sale in the Gettysburg post office next November 19, the anniversary date of the martyred President's immortal address.

The Times was advised by telephone that the President had signed the measure from Colonel Philip Mathews, chairman of the Pennsylvania Democratic committee. Colonel Mathews had urged Mr. Truman to sign the resolution when he met the President's special train at Harrisburg last week, en route from the western trip.

White House Phones Mathews

In addition Colonel Mathews had contacted Charles Ross, Truman's press secretary, by telephone several times during recent days to receive assurance that the resolution would not be overlooked.

Immediately after Truman had signed the resolution Mr. Ross telephoned Colonel Mathews to convey the news. The latter then telephoned The Times and said he was "happy to report the Lincoln stamp resolution has been signed by President Truman." U.S. Senator Francis J. Myers, of Philadelphia, introduced

the measure in Congress last November. He steered the measure through the Senate Committee on Post Office and Civil Service for a favorable report and recommendation for passage. The resolution then was sent to the House and referred to a similar committee which also reported favorably. Shortly before adjournment last Sunday the House passed the measure and sent it to the White House for the President's signature.

New Issues Will Go On Sale First In Gettysburg Office November 19; Special Design

President Harry S. Truman, shortly before ten o'clock this morning, signed the Senate Joint Resolution authorizing the issuance by the U.S. Post Office department of a special series of stamps to commemorate the 85th anniversary of Lincoln's Gettysburg Address.

The new stamps will go on sale in the Gettysburg post office next November 19, the anniversary date of the martyred President's immortal address.

The Times was advised by telephone that the President had signed the measure from Colonel Philip Mathews, chairman of the Pennsylvania Democratic committee. Colonel Mathews had urged Mr. Truman to sign the resolution when he met the President's special train at Harrisburg last week,

en route from the western trip. White House Phones Mathews In addition Colonel Mathews had contacted Charles Ross, Truman's press secretary, by telephone several times during recent days to receive assurance that the resolution would

not be overlooked. Immediately after Truman had signed the resolution Mr. Ross telephoned Colonel Mathews to convey the news. The latter then telephoned The Times and said he was "happy to report the Lincoln stamp resolution has been signed by President Truman."

U.S. Senator Francis J. Myers, of Philadelphia, introduced the measure in Congress last November. He steered the measure through the Senate Committee on Post Office and Civil Service for a favorable report and recommendation for passage. The resolution then was sent to the House and referred to a similar committee which also reported favorably. Shortly before adjournment last Sunday the House passed the measure and sent it to the White House for the President's signature.

Setting Hot Pace For Catchers

Baseball fans in Gettysburg and Adams county are marvelling at the feats of one of the youngest catchers ever to perform in this area. The youngster is Johnny Little,

but he now has all the earmarks of developing into a top notch re-Playing with the Gettysburg News Agency team of the South Penn league, Gettysburg Aces and Junior Police, young Little catches the fastest of the hurlers in first class style.

He has not committed an error this season and sports a batting mark Bob Harpster, who has coached the lad during most of his brief career. says the youngster is a "natural born ball player, a willing and adept

pupil and a scrapper all the way." Next fall Little will enter Gettys-

Meanwhile, the shifting engine oined in pursuit of the runaway baggage car. The car was finally located seven

Dock Workers Will Return To Work

London, June 29 (AP) - Striking London dock workers voted at a mass meeting today to go back to work tomorrow.

Confronted by a labor government determined to smash the 16day-old work stoppage which has Blough said later he didn't know slowly pinched off London's food supplies, the dockers voted by a wide margin to get back on the job. The strike was a wildcat affair, never authorized by a union.

A national emergency was proclaimed last night and the labor cabinet immediately moved to arm itself to beat down the costly strike. About 2,000 soldiers moved into the dock areas, where 232 food and

commodity ships were tied up, to

unload vital supplies for the port of London, where official figures showed more than 18,000 men idle. King George VI declared the state of emergency last night under a 1920 law used only once before-in the British general strike

MARSHAL TITO COMES CROPPER WITH COMMIES

By DEWITT MACKENZIE

(AP Foreign Affairs Analyst) So the Bolshevist citadel which Lenin and Stalin built isn't without weakness of structure after all!

The Red Cominform's blistering condemnation of Yugoslavia's cocky dictator, "Marshal" Tito, and his captains discloses a serious disaffection in one of the most important satellite states. This is the first big explosion of its kind to come to public knowledge and, as one would expect, Moscow has struck swiftly.

Tito's sins are not detailed but are summed up generally with the statement that Yugoslav Communists have departed from the Marx-Lenin line and that Tito and his colleagues have followed a course which is hateful to Soviet Russia. The Cominform accuses them of being Trotzkyites, which is the supreme insult in the parlance of the Muscovites. Marshal "Too Big"

To get the full significance of this Trotzky slap it must be recalled that Stalin and Trotzky battled for leadership at the time of Lenin's death. Stalin won and Trotzky was expelled. The refugee wandered from country collegians. to country and finally wound up in Mexico where his brain was mysteriously beaten out with a spade. These facts can be of small satis-

He is reported to be at Bled, the Yugoslav summer capital.

The way it looks from here, Moscow finally recided that the Marshal had got too big for his breeches. This peasant's son who worked his blue shield. way up to leadership and displaced the Yugoslav monarchy, long has been regarded as a one-man band and a law unto himself. He improved on the customary communist toughguy bullying and bluster. On several occasions he got tangled with the United States, and even defended his airmen in shooting down unarmed American planes over Yugoslavia, in one instance with the death of five U.S. aviators. His regime also "Bloody Dictatorship"

Tito has ruled Yugoslavia with an iron hand, and his dictatorship has been a bloody one. Under his regime hundreds of priests have been executed in a drive against the church. The toll of political deaths probably never will be known.

rerism against anti-Communists and distance. bullying the Democracies But Tito had bigger ideas. He has given many signs of looking upon himself as Czar of Russia's Baikan satellites.

Well, now, you can't get away with that stuff in the Muscovite empire. Be it known that Tito isn't the only ambitious Communist leader, and anyone who sticks his head up too high is likely to get it lopped off. Stalin Is "Boss"

We shall hear more of this rivalry among the Red chieftains when Stalin finally relinquishes his rule, and maybe a dozen able but hardboiled leaders compete for the Soviet dictatorship. But so long as Stalin is in the chair, there is only one boss.

The Tito situation apparently came to a head a couple of weeks ago when the Cominform held a Yugoslav delegates, for reasons un-Lugoslav delegates, for reasons unexplained, refused to sit-or were not permitted to sit—with those of eight other nations, including Russia. So Moscow has struck.
